

Graphic Design Internship/Working Student (m/f/d) – Tübingen

Flexible, start now

What we do

At Layer7 AI we don't only consult on matters around Artificial Intelligence (AI), but we also leverage promising datasets to either identify, train and implement customized AI models for our clients or to build standalone scalable AI products. To stay on top of the latest developments in machine learning we collaborate with selected scientists from the Max-Planck-Institute for Intelligent Systems and the University of Tübingen, which is also the reason why we are based in Tübingen – Germany's top location for modern machine learning. Our team consists of AI researchers, former management consultants, and software engineers. This unique combination of expertise allows us to rapidly develop, test and scale AI solutions for our clients as well as for our own product development pipeline.

Job

- Together with our product- and sales team you create a company-wide design- and branding strategy which will be used in all communications materials
- You design graphics for e.g. our website and our social media presence
- You develop your own ideas for our product visualizations
- You autonomously supervise your projects from the first draft up to the final product
- You support us in creating presentations and pitch material

Your profile

- You are currently pursuing or are a graduate of a bachelor's/master's degree in graphic design or related field
- You have a strong passion for startups
- You already have relevant work experience such as freelancing (this is a plus!)
- You have a keen interest in graphic design, especially isometric design
- You are creative mindset and have very strong conceptual skills
- You demonstrate a pro-active work ethic: goal-driven, independent, and structured
- You possess excellent communication (verbal and written) and interpersonal skills to effectively communicate with our business and tech teams
- You are confident in using a graphic program of your choice, e.g. InDesign, Photoshop, etc.

What we offer you

- You shape Layer7 AI right from the start
- You create "impact" – it is our aspiration that your ideas and analyses are rapidly implemented within our company
- You work in flat hierarchies with a dynamic and highly competent team
- You generate valuable learnings in the technology of the future: artificial intelligence
- You get the opportunity to transition into a permanent full-time position
